Dear Sir:

In response to the Statement of Reasons for Allowance in the Notice of Allowance dated March 4, 2009, the Applicants respectfully submit the following comments.

To the extent that the Examiner's paraphrasing of the subject matter of the claims deviates from the actual language of the claims, the Applicants respectfully disagree with the Reasons for Allowance. The Applicants also wish to point out that the claims are patentable based on the combination of elements recited therein and not on any particular feature. Accordingly, to the extent that the Reasons for Allowance omit claims elements, the Applicants respectfully disagree with the Reasons for Allowance.

Additionally, to the extent that the Examiner's characterization of any specific references differs from the actual disclosures of the cited references, the Applicants respectfully disagree. Moreover, because the claims are patentable based on the combination of elements specifically recited therein, the Applicants respectfully disagree with the Reasons for Allowance to the extent
